

From the office of the Chief Building Official

Before you decide to build, it is important to speak with your local building official. They can answer any questions that you have related to local zoning, the Building Code, and other by-laws. It is important to meet planning and Building Code requirements to ensure your builds are legal, safe, and healthy places to live and work. If you're thinking about building, schedule a meeting with our Chief Building Official; Henry Van Ael by calling the office (807)274-6053, or email Henry directly at ambiscbo@gmail.com

The Township office will be CLOSED Monday September 4th for Labour Day.

What you can do:

- Put garbage out the day of pickup
- Don't leave pet food outdoors
- Thoroughly clean BBQ grills
- Fill bird feeders only in the winter
- Do not put sweet food in composter
- Keep meat scraps in the freezer until garbage day
- Pick all ripe fruit off of trees and remove fallen fruit from the ground

Garage Sale Trail

There's still time to register!

Alberton Recreation Committee is hosting a Garage Sale Trail on September 9th throughout the community. Registration is \$10.00, and includes the following project specific items: signage, balloons, an inventory tracking sheet, and an advertisement in the Fort Frances Times. Members of the Recreation Committee will also post the event on their personal social media accounts, which will be sure to reach shoppers from the surrounding communities!

*****Digital Maps will be available on alberton.ca on Friday, Sept. 8th, and Print maps will be available for pick up at the entrance to the municipal office on Saturday morning*****

To register, go to www.alberton.ca or stop by the office today!

HYDRO ONE has scheduled a lengthy power outage for Sunday, September 10th from 7am to 7pm CST for power line maintenance.

Here are a few tips to get you through:

Be sure to have plenty of drinking water available for you and your family, pets, and livestock.

Roast Hot Dogs or Smokies on the BBQ for an easy supper! No dishes today!

Have buckets of water available for washing hands and flushing toilets.

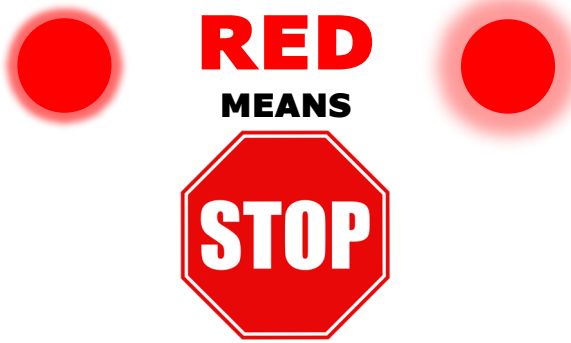

PSA: Where there are no posted speed limits, the maximum speed is **50 km/h** in cities, towns, and villages, and **80 km/h** elsewhere.

Please be considerate of others on gravel roadways. Flying stones and dust can cause severe injury and/or damage to pedestrians and vehicles.

Hwy 602 Update

Culverts have arrived, and road work has begun on Hwy 602. MTO has provided a target date of early November for light duty traffic; however, the surface treatment is not scheduled to be completed until the spring of 2024.

**RED
MEANS**

Most students return to school on August 30th. During the next few weeks, use extra caution as students and bus drivers adjust to their new schedules, and learn their routes.

When approaching a bus with flashing lights head-on, stop well before the bus, to allow students enough space to safely cross in front of you. When approaching a stopping bus from behind, stay back at least 20 metres (approx.66 ft.). Allow extra time to get where you are going and stay alert for flashing lights and children running behind!

Stay alert and stay safe!

Reconnect with friends and neighbours
at the
ALBERTON PANCAKE SUPPER
